Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in responsive to the amendment communication filed on July 09, 2005. Claims 2-7, 12 and 19 being amended. This amendment has been entered and carefully considered.

Response to Arguments

2. Applicant's arguments with respect to claim 17 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 17 is rejected under 35 U.S.C. 102(e) as being anticipated by Basham et al (USPN 6,571,304), hereafter as Basham.

RE claim 17, Basham discloses a data storage apparatus (see column 3 line 12; the tape drive storage device), comprising a tape cartridge (see column 3 line 14; the tape cartridge) having a cartridge memory (see column 3 line 13; the

Art Unit: 2651

non-volatile semiconductor memory) which is configured to store therein a cartridge stamp (see column 4 lines 34-36; the time stamp is stored on the non-volatile semiconductor memory).

Allowable Subject Matter

5. Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 1-16, 19-21 are allowable.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-16, 18-21 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a system or method for determining whether the cartridge stamp needs to be updated and then updating it accordingly if necessary, wherein the cartridge stamp is stored in a cartridge memory located within a tape cartridge. It is noted that, the closest prior art, Basham et al (USPN 6,571,304) shows a control system for using memory on cartridges to overcome tape drive problems. However, Basham et al fails to disclose a way for determining whether the cartridge stamp needs to be updated and then updating it accordingly if necessary.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
